Welcome to Dog & Field

Dog & Field's roots are bedded deep within the British countryside and with our founding members steeped in the history of working dog kennels. Recognised for our innovative and forward-thinking outlook to gundog training and the equipment a modern gundog trainer requires.

With both the handler and dog in mind, we not only supply our current and extensive range of gundog training equipment, but we are continuously investing in new and cutting-edge product development.

We work side by side with some of the most renowned professional trainers up and down the country to bring you the very best training equipment.

Winners of the 2021 Innovative Product of the Year at the prestigious Great British Shooting Awards for the ground breaking design of The Original Clone Feather Print Dummies. Celebrated for the innovation, design and distribution of the Original Dead Bird range of Gundog dummies.

Yours Sincerely

“Quality product sensibly designed. - We have had dogs for many years and have seen too many training aids and toys be destroyed too soon. We discovered one of the aids that is baring up well. Excellent quality and our two Labradors...”

THE ORIGINAL CLONE RABBIT DUMMY

The Original Clone Rabbit Dummy are a great simulation retrieve due to their textured fur middle but the spread of the weight in the dummy. It is unevenly spread from top to bottom. The top end (where the toggle is) is light and smaller - simulating the legs of a rabbit. The top end of the dummy is heavy, simulating the head and front legs of a rabbit, deliberately making the rabbit awkward to pick, hopefully then making the dog learn to pick the middle body part for a more balanced retrieve. Enjoy!
